

Community Council March 2023

Attending:

Doug, Jordan, Trisha, Heather, McKenna, Shaney

Review Minutes:

Approve-Trisha Second- Jordan

Goals/Action plan:

80% growth of students below benchmark to show typical growth

We had 50% growth which is closer to the district goal

SEL Goal: Needs to be tied to an academic goal.

Morning meeting vs. house meeting- Jordan, which is more effective?

One has benefits more for the classroom and one has more school overall feeling.

Boundary changes:

Focus group meeting

We have gone from 950-750 in the last two years.

School by the ski lakes to open fall 2025

We are anticipating 38 kids—about 800 kids total next year

Community Service: after school tutoring for homework help? Is there a need and are there students that would want to do it. Most teachers are not giving a lot of homework. Can reassess if the need becomes larger.

Goals for next year:

Language Arts:

Syracuse Elementary School will show at least 3% growth on its EOY Pathway to Progress as compared to the previous year.

We will do this by continuing to use SPIRE, iReady, and follow literacy plan.

Math:

Syracuse Elementary School will show at least 2% growth in Pathway to Progress scores K-3 as compared to the previous years scores.

We will do this by continuing to use math tutors, iReady, and district/school tools used to support tier 1 instruction.

Motion to adjourn: Shaney—Heather second
